

# Highlight Max & Min Data Points

**Dataset:** Financials dataset from PBI sample datasets

## **DAX Formulas:**

1. Month-Year = CONCATENATE(LEFT(financials[Month Name],3),CONCATENATE("-",financials[Year]))
2. total\_sales = sum(financials[ Sales])
3. max\_sales = MAXX(ALLSELECTED(financials[Month-Year]), [total\_sales])
4. min value =  
var min\_val =  
MINX(ALLSELECTED(financials[Month-Year]), [total\_sales])  
var check = if(min\_val = [total\_sales], min\_val, BLANK())  
return check

## **Chart:**

1. Line chart
2. Month-Year on **Axis**, Sales, max value and min value on **Values**
3. Country on **Small Multiples**
